Azbil North America, Inc.

INTRODUCTION

Our mission is to provide innovative, long service-life, measurement and control products.

WHY CHOOSE AZBIL? We call it "human-centered automation", collaboration at the end-user level to develop advanced measurement and control technologies to create new value for our customers. We solve problems by providing products, solutions, and instrumentation to support optimal operation of our customers' facilities and equipment throughout their life cycle.

Sensing, Control, and Measurement

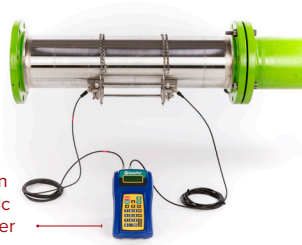
Recommended reliability, ease-of-use, and accuracy.

C7G_Digital Multi-Loop Controller

MagneW Electromagnetic Flowmeter

GTX_ Advanced Technology Pressure Transmitter

AX2000 Series Multi-variable Mass Flow Vortex Flowmeters



SonoPro Clamp-on Ultrasonic Flowmeter

VorCone Two-Phase Steam Quality Flowmeter

FEATURES

- Advanced multi-variable technologies
- Digital communications
- No moving parts with high reliability

BENEFITS

- Lower operational costs
- Extended capital equipment life

MARKETS AND APPLICATIONS

- Petroleum/Petrochemical/Chemicals
- Pulp and Paper
- Oil and Gas
- HVAC and Energy

Azbil North America, Inc.

Control Valves and Valve Positioners

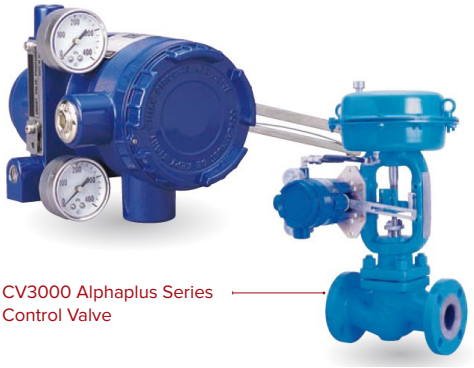
Highly reliable control valves and cutting-edge smart valve positioners for a high level of confidence and efficiency.

Smart Valve Positioner 200 Series Remote Type

Smart Valve Positioner 700 Series

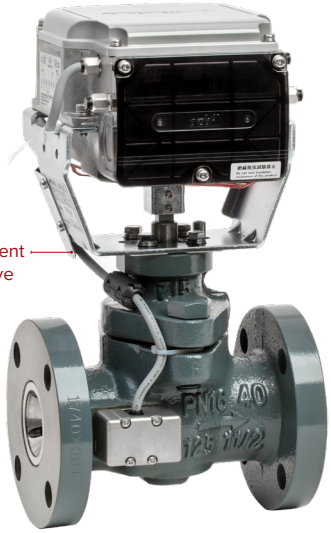
CV3000 Alphaplus Series Control Valve

Smart Valve Positioner 300 Series



CV3000 Alphaplus Series Control Valve

ACTIVAL+ Flow Measurement and Control Valve



ACTIVAL Motorized Two Way Ball Valve with Screwed-End Connection

FEATURES

- High Reliability
- Easy Operation
- Multivariable Technology
- Advanced Diagnostics
- Digital Communications

BENEFITS

- Easy setup and configuration
- Lower total cost of ownership (TCoO)
- Extended service life

MARKETS AND APPLICATIONS

- Petroleum/Petrochemical/Chemicals
- Pulp and Paper
- Oil and Gas
- HVAC and Energy
